OUR TEAM

We have a hand-picked and performance-monitored multilingual linguistic team. Our linguists are native speakers of the target language, have the subject matter expertise needed and stay up to date on OCR and Department of Health and Human Services (HHS) guidelines and recommendations regarding Protected Health Information.

DATA PROTECTION

Our processes help protect critical patient and member information by being in line with current federal law and HIPAA, Affordable Care Act (ACA) and Title VI regulations.

We can translate your healthcare documents from Open Enrollment to patient communications—we've got you covered!
